NA = Not available

Only residents of Erie County are included in the Erie County case counts with the exception of influenza which may include students whose permanent residence is outside of Erie County

Case counts for the United States do not include dependent areas with the exception of HIV Infection/Disease

Rate per 100,000 population unless otherwise indicated; Current year population (Intercensal estimate July 1, 2013-July 1, 2014) used for calculations - Erie County (278,936), PA (12,793,767), U.S. (318,907,401)

Numbers less than 20 provide statistically unreliable rates

[^]Reported cases with CDC-defined case classification status

^{^^}Reported cases with PA DOH-defined case classification status

^{^^^}Estimated cases with CDC-defined case classification status; Estimating case counts adjusts for reporting delays and missing risk-factor information, but not for incomplete reporting

* HIV Infection or HIV Disease refers to a diagnosis of HIV infection regardless of the person's AIDS status at the time of diagnosis; U.S. totals include 50 states, District of Columbia, and 6 U.S. dependent areas

**Confirmed elevated cases only; Age <7 = 0-83 months; % = (Age <7 and confirmed elevated blood lead level/Number of children aged <7 tested) *100
