## Erie County reports 25 new positive cases of COVID-19

Erie, PA — County Executive Kathy Dahlkemper and Erie County Department of Health announce 25 new positive cases of COVID-19 reported in Erie County as of 11:59 p.m. on June 3.

The total cumulative cases of COVID-19 in Erie County since March 2020 is 21,093 with 471 deaths as reported in the National Electronic Disease Surveillance System (NEDSS). This information can be found at [eriecountypa.gov](http://eriecountypa.gov).

The Erie County Department of Health reminds the public that unvaccinated community members risk contracting COVID-19 and, if positive for it and even without exhibiting symptoms, can infect their less healthy and under-immunized loved ones.

Being tested can help determine if someone is positive for COVID-19. Free testing clinics are available and open to the public next week. No insurance is needed and walk-ins are welcome.
