WHOLE HOME REPAIR PROGRAM REACHES CAPACITY

ERIE, PA – Due to the overwhelming response to the Whole-Home Repairs Program, we are no longer able to accept applications. If you have made inquiry with either Erie County, the Redevelopment Authority of the City of Erie or the Corry Redevelopment Authority your request will be processed as soon as possible.

“After launching the program, we received hundreds of applications. Unfortunately, Erie County was only allocated \$2.6 million for this program. It is our promise to stretch that investment as far as possible and rehabilitate as many homes as we can throughout the County,” Said Erie County Executive Brenton Davis.

If you were not selected in this process, you may qualify for other programs available through the City of Erie Redevelopment Authority. Check their website for program eligibility at <https://www.redeveloperie.org/apply-to-program>.

Updates to the Whole-Home Repairs Program will be posted on the Erie County Department of Planning and Community Development’s webpage at <https://eriecountypa.gov/departments/planning-and-community-development/programs/whole-home-repair/>.
